**Announcement Number: NW4204**

**Opening Date: 04-21-04**

**Closing Date: 05-04-2004**

**Location:** Navy Public Works Center – Washington, DC

**Area of Consideration:** Current Permanent Federal Employees/Reinstatement Eligibles/Veterans

**About Us:** Navy Public Works Center is the Regional Facilities Management Team. We offer timely, best value, innovative, technological solutions and alternatives to meet our clients' facility management needs. We support the missions and provide the best Quality of Life for our NDW Family. Our facility services include: life cycle management, planning, maintenance, repair, construction, engineering, building services, grounds maintenance, transportation, utilities and other installation support.

**About the Job:** This position is part of the Lead/Asbestos Abatement team in the Hazardous Material Operations Division. The incumbent of this position works under the direct supervision of a Foreman pipefitter. In outside services, this job engages in the maintenance, repair and construction of all phases of pipefitting and plumbing trades. This position is required to maintain, install and repair all utilities, including steam distribution, water, and sewer, which consists of valves in mains, building service valves expansion joints, traps, flanges, check valves, pipe coverings and piping. The incumbent is required to work with both high and low pressure steam, as well as air distribution, consisting of high and low pressure airlines running in steam tunnels. Inside service include high and

low pressure steam service, consisting of radiator, unit heater, hand valves, traps, galley equipment, and laboratory equipment. Incumbent is also required to perform air conditioner and refrigeration service.

**Qualifications Required:** Incumbent must be willing to abate asbestos and lead and work on chemical and hazardous materials spills and clean ups. The incumbent must satisfactorily complete and maintain certification to abate lead and asbestos and health and safety training for hazardous waste operations and emergency response. Good physical health and able to climb, crawl, kneel, and when necessary, work in confined spaces for long periods of time. The position requires occasional work around moving machinery parts. Incumbent will be given assignments to remove, replace, clean up or contain hazardous and/or toxic materials and chemicals. Incumbent may be required to pass a physical examination.

**Knowledge, Skills, and Abilities:** In order to receive optimum consideration it is suggested that you address the following factors either in your resume or as an attachment to your resume:

1. Ability to use all designated tools and machinery in a safe manner.
2. Knowledge of pipefittings and fixtures, etc. and ability to apply this knowledge in the performance of pipefitting and plumbing trade.
3. Ability to read blueprints and sketches, layout work, and follow through on all tasks assigned.
4. Knowledge of lead and asbestos abatement procedures as well as chemical and hazardous materials spills and clean ups.
5. Knowledge of soldering copper piping; silver brazing for high-pressure air work; and ability to use a cutting torch.
